# campers WHITIANGA

This week sees the availability of Campervans for hire in Whitianga. Coastal Campers Ltd has been set up by Craig & Karen Richards.

After spending 12 months touring the USA in a motorhome, we fell in love with the lifestyle and freedom of travel that it provided. On returning to NZ, we set out to find a motorhome of our own so we could see more of our own country and recapture the feeling of being on the road again. Whilst in the South Island picking up our motorhome, we were amazed at how much campervan activity there was. We thought it would be great if people could see the Coromandel the same way.

So we decided to find some vans that would be suitable for couples & families to hire directly out of Whitianga. Local shuttle companies are able to pick up overseas visitors from Auckland Airport and deliver them here, saving the hassle of just landing and trying to find your way out of the city.

The motorhomes are not just for tourists though, local people will be able to leave their cars safely parked at our depot while they take one away and explore

the country. Coastal Campers place no road restrictions on their vehicles unlike the other rental companies so you are able to actually drive past Colville and camp at idyllic spots like Port Jackson and Waikawau Bay. There are 15 Department of Conservation campgrounds throughout the Peninsula and with the motorhomes all being self-sufficient you can set yourself up by the beach or in the bush. The clean, modern vans come fully equipped with bedding, towels, crockery, cutlery & cooking gear as well as first aid kits, torches, maps and information. Child seats are available if needed. Optional extras to hire include surfcasting fishing kits, mountain buggy pushchair & TV's. They sleep 5 + 1 persons and come complete with showers, toilets, heating and air conditioning.

Coastal Campers also include in their standard rates unlimited kms, free road user charges and free AA roadside assistance. There is a minimum 3 day hire from March to November and a minimum 7 day hire from December to February. Discounts are offered for 21 + days hireage.

The motorhomes are easy to drive and no special license is required.

They are also a good option when you're needing extra accommodation at your place or for weddings and other events. And if your thinking of purchasing one, it's a good chance to try one out before you buy.
